UEFA CHAMPIONS LEAGUE

OFFICIAL SUPPLIER

Enjoy ultimate photo quality and exceptional ease of use.

Radical styling and real connectivity make the PIXMA iP6000D the printer of choice for photo enthusiasts and true trendsetters. Print directly from your digital camera, memory card or mobile phone. Enjoy exceptional photo print quality, with PC-free printing for real ease of use. All in an attractive, space-saving printer that is packed with innovative and exciting features.

A LARGE LCD SCREEN FOR EFFORTLESS EASE OF USE

Select, manipulate and print your favourite photos straight from the printer's advanced built-in viewer. A large 2.5" colour LCD screen and an intuitive user interface makes PC-free printing direct from your memory card super simple. Benefit from sophisticated functions that include search, colour balancing, special effects, trimming and the ability to brighten faces. So you get perfect prints to suit your precise requirements.

DIRECT PRINTS FROM YOUR CAMERA OR MOBILE PHONE

Print stunning photos directly from your camera - quickly, easily and without using a computer. The PIXMA iP6000D supports PictBridge, the universal standard for direct photo printing from all compatible digital cameras and camcorders. Connectivity even extends to compatible camera phones. An IrDA interface allows you to print superb images straight from your mobile camera phone.

AUTO DUPLEX PRINTING

The built-in Auto Duplex Printing Unit handles both plain paper and photo paper. Auto Duplex Printing is compatible with both the Auto Sheet Feeder and Cassette feeding.

DVD/CD DIRECT PRINTING

The built-in tray-guide lets users directly print on DVD and CD. Known for precise, high-speed, high-image-quality printing, Canon's DVD/CD Direct Printing has been made easier to use.

2-WAY PAPER FEEDING

- Auto Sheet Feeder
- Cassette feeding

The paper feed cassette is built into the printer unit. Combined with the conventional Auto Sheet Feeder, this offers 2-Way Paper Feeding convenience as a standard feature.

PAPER FEED SWITCH

The paper feed switch shifts the paper-feed location from the Auto Sheet Feeder to the Cassette and back. Detailed settings for the paper feed method can be set using the printer driver.

COST-CUTTING SINGLE INK SYSTEM

Transparent ink tanks for all six colours can be replaced individually, reducing your costs significantly. See at a glance when a single tank needs replacing, while an intelligent ink detection system ensures you don't waste a drop of ink.

ADVANTAGE OF 2-WAY PAPER FEEDING

1. Can be used with plain paper and photo paper simultaneously
2. Max. 300-sheet large-volume printing
   Sheet Feeder: Plain paper (Max. 150 sheets),
   Cassette: Plain paper (Max. 150 sheets)
3. Space-saving configuration
   Paper can be fed and ejected at the front, allowing the printer to be positioned right up against a wall.

FAST AND FLAWLESS BORDERLESS PRINTING

Benefit from ultimate photo quality and fast borderless printing - with bright, bold and vivid colours. A six ink printing system is combined with Canon's FINE* print head to achieve remarkable quality and print speeds. Micro-Nozzles eject tiny 2pl ink droplets with high precision for a maximum 4800 x 1200 dpi[1] resolution, capturing every detail perfectly. Produce beautiful borderless prints rapidly - on 4 x 6", 5 x 7" and A4 sizes.

WINDOWS & MAC COMPATIBLE

The PIXMA iP6000D works with popular Windows and Macintosh operating systems, with practical USB interface. So you benefit from complete connectivity for all your photo printing requirements.
